Next-Generation Label Printing Scale
Smart. Proven. Future-proof

Easy Operation
User compatible to previous scales, logical menu structure for simplified navigation, faster and more flexible keyboard and proven functionalities, extended with many new and exciting possibilities: bPlus continues the success story of METTLER TOLEDO label printing scales.

Quality
bPlus lives up to every expectation associated with quality. Stylish design, top-quality components like an incredibly fast printer – plus all the carefully considered details combined to create a tangible difference.

Smart Management
Keep firmware and configurations data up to date and optimize the operational uptime and system continuity with feature-rich and legally compliant application software. Furthermore, bPlus enables a convenient setup and configuration by scale configuration software or easy USB configuration loading.

Investment Protection
bPlus convinces with a fast and flexible keyboard, less standby-power and enables quick paper roll changes. It combines simple ergonomic operation and high functionality – thereby setting the new standard in its performance class.

bPlus-H2
Label printing scale for fast and accurate weighing and service

bPlus is an ergonomic and dependable retail scale designed for grocery stores and supermarkets that place high demands on the quality and reliability of the equipment they work with. Its ingenious details and smart software will help to simplify the scale-, sales and category-management processes and hence save valuable time, day after day. bPlus is perfect for retailers who are looking to invest wisely in future proof weighing technology that will help them focus on what really matters: sales and profit. That's why every part of a METTLER TOLEDO bPlus scale is carefully engineered to provide you with outstanding benefits. Because the difference is in the details.

METTLER TOLEDO

Technical Data
bPlus-H2

Operator Display*
High contrast LCD display
Weight: 6 digits
Tare: 5 digits
Price/kg: 6 digits
Total: 7 digits
Text line: 16 alphanumeric characters (dot matrix line)

Customer Display*
High contrast LCD display
Weight: 6 digits
Tare: 5 digits
Price/kg: 6 digits
Total: 7 digits
Text line: 16 alphanumeric characters (dot matrix line)

Keyboard
Light touch keyboard; easy to take out for cleaning
99 light touch keys with pressure point
71 preset keys with two layers for assigning 142 PLUs
Separate individually configurable function keys

Printer
Thermal printer for receipts, labels
Printing speed: up to 125 millimeters/second
Print resolution: 203 dpi
Roll width: 65 mm (liner label),
Printable width: 56 mm
Roll diameter: max. 120 mm

Data Storage
32 MB internal memory

Interfaces
2 RS232 serial interfaces
1 RJ45 Ethernet interface
2 USB interfaces
1 RJ11 interface (12 V) for controlling the cash register

Networking and Data Transfer
10/100 Base T Ethernet, TCP/IP, USB, DHCP, Wireless LAN**
DHCP support for automated network setup
Hub less network connection
Automatic backup
Smart management functions for transmitting and securing
production and configuration data via USB stick

Housing Color
Grey

Weighing Range
6/15 kg
Graduation
2/5 g
Minimum capacity
40 g
Automatic zero-setting

Accessories and Options
Power cord
Integrated wireless kit for wireless data transmission according to
IEEE802.11b/g/n standard

Power Consumption
100–240 V AC, 50/60 Hz
Standby power consumption: < 0,5 W
Working power efficiency: > 85 percent

Green MT

* 1 line dot Matrix display with white backlight
** optional

Optimum support in the fresh food category
- Fast weighing, serving and labeling
- Proven, mature software extended with next-generation functionalities
- Compatibility with its predecessor, makes it easy for employees who know predecessor model to work with the new scale
- Smart software solutions allow to run bPlus and predecessor models in one store
- Professional PC-software for integration with ERP system
- Smart management for optimal data integrity and operational uptime of the scales
- Easy advertising on the scale by adding magnetic pictures to the scale housing
